

I am writing to you about the telephone privacy law in Indiana. I was recently informed that you are trying to change the federal law regarding no call list to be a lesser federal law. I am totally opposed to this. I used to receive 18-25 phonne calls a DAY, but now I only receive maybe 1-2 a WEEK. I have 4 kids and I enjoy spending time with them instead of answering all of these calls. It is so frustrating to receive all of them. It got to the point that I didn't want to answer the phone. Please l;eave the laws as they are currently.

Thank you,

Jill & Brian Lee
